ING a paean of American Bigness and Achievement! Here is pre-eminently, incomparably, superlatively the Land of SUCCESS—the richest land—the freest land—the land of BIG OPPORTUNITIES!

Think of it!

-A hundred million people-the largest and most populous republic in history.

-with the highest annual income of any nation in the world. (Not less than 25 or 30 billions of dollars. The mind can't grasp it.)

-More than that of any other two nations, more than Great Britain and Germany combined!

The greatest production of GRAIN, COTTON, IRON, STEEL, COPPER, OIL, -and heaps of other things

—More railroad lines than all the rest of the world put together.

-An internal commerce greater than the whole world's international trade.

-More steel buildings than on all the rest of the globe.

-Twice the banking capital of any other nation,-almost as much as all Europe

-More automobiles than all the rest of the world put together.

-More farm tractors than on all the rest of the earth. -More motor-boats, more telephones, more magazines and newspapers, more miles of telegraphs, more public libraries, more school houses, more sewing machines, more

-The first real republic in the widest, freest sense!

-The only nation that spends more on education than on armies and navies-nearly 500 millions a year!

—And all this from a slender colony of farmers fighting for existence on the shores of the Atlantic less than a century and a half ago! Nothing like it in all the world's history.

How did it come? Because of that act of Massachusetts Colony in 1674 which gave to the world the first example of universal and free education.

-And along with all this has gone the other big fact

-the United States has bought more BOOKS and paid more for them than any other two nations in history, -and for one single great work of reference it has paid more than 60 million dollars-

the work that from the days of George Washington to the present time has been the foremost work of its kind, in any language-THE ENCYCLOPAEDIA BRITANNICA. The astonishing sale of the Encyclopaedia Britannica in the United Statesthe fact that not less than 14 or 15 million volumes of this great work have been sold here cannot have been without a real and decisive influence in

American life. It is still more remarkable that for the latest issue, the new Eleventh Edition, a larger sum has already been paid by the people of the United States alone than for all other large encyclopaedias ever printed in the English language.

N the ears of Dick Whittington sang the Bow Bells of old London—calling him!

And in the ears of most every American boy (and many American girls, too) has rung the same call—to achievement, to adventure, to a larger life,—to the American ideal—SUCCESS. It still rings.—It is calling to twenty million boys and girls of fifty states—

—eager to carry on the true American tradition:—High pressure, high wages, high deeds, invention, resourcefulness—the bound-to-get-there determination.

What has been the mainspring behind this American VIM? One great factor has been the wide dissemination of education, knowledge, books!

Universal education, paid for by all the people is an AMERICAN idea, and America's GREATEST contribution to civilization; for it was the pioneer idea which led to the foundation of the American Republic.

This American idea has now spread all over the world; but America is still far in the lead.

No other nation has ever spent such tremendous sums on education. Nowhere else is the general average of intelligence so high. In no other

country on earth have so many books been sold. Of Shakespeare, of Macaulay, of Darwin, of Herbert Spencer, of Dickens, of Lord Bryca —practically every great English writer—five or ten times as many volumes have been sold in America as in all the rest of the world.

Still more remarkable has been the unprecedented diffusion of works of universal information-encyclopaedias and the like.

Of a single work more copies, with a total of a larger number of volumes have been sold than the combined sale of all other large works of reference in every language on earth, since books began to be printed

Needless to say what work has had this amazing distribution, for there is only one work like it in all the world-

## THE ENCYCLOPAEDIA, BRITANNICA.

In the 148 years of its existence, the Encyclopaedia Britannica has had a total sale, in volumes, exceeding that of any other book ever published, save the English Bible, and perchance Shakespeare. This total, for the eleven editions since 1768, now reaches the staggering figure of more than a million sets, or far above 20,000,000 volumes. And the total paid for them exceeds a hundred million dollars!

Of the total sale of the Britannica since 1768, more than two-thirds has been in the United States alone. And of the new Eleventh Edition, more than three-quarters, to date, have been sold in this country.

Its million schoolhouses, its 1500 colleger and universities, and the wide distribution of the Britannica and countless other smaller compends of knowledge have made the American people what they are—the most resourceful, the most inventive, the most progressive people on earth.

# A Wonderful Bargain-Soon Closed

So long as the new Eleventh Edition of the Encyclopaedia Britannica was to be had only in the expensive Cambridge University issue there was ample excuse why many homes should go without it. Now

We believed this spleudid work ought to be in every wide-awake family in the United States and we were so convinced of the possibilities in a cheaper edition that we arranged with the publishers of the Britannica to make for us a new issue, absolutely the same as the Cambridge University issue, unabridged, unchanged, except for the size of page and type. And we contracted with them for a huge printing, probably the largest single printing order ever given in this country.

This issue we offer now at one-third the price charged for the Cambridge University issue; and we send you the complete work, the entire 29 volumes, upon receipt of a single dollar-the balance in small monthly payments. But this is not all.

We knew there would be a great number of people who could not believe that we could offer the complete new Eleventh Edition at such a price and on such terms. There was only one way really to convince them. That was for them to see the books. Therefore we make this offer: We send you the books when you have paid a single dollar and you may then keep them three

weeks, use them freely, examine them and find out their worth to you. Then, if for any reason whatsoever, you do not wish to keep them, you may send them back, and without any question, we will refund the dollar you have paid and shipping charges as well.

But you must take advantage of this offer now if you wish to obtain this new "Handy Volume" Issue on these prices and terms. We had hoped to go on selling the Britannica at these prices indefinitely. But the war has come and brought a great scarcity into many lines of trade and forced prices to prohibitive figures. The publishers now notify us that they cannot supply us with any more sets at these prices after those which we have contracted for are delivered.

There is just time to send for the beautiful 130-page book about the new Britannica and our new issue. We advise you to send your name without fail to-day.

Sets may be seen and orders left at

GIMBEL BROTHERS, Broadway and 33d St. SCRIBNER'S, 597 Fifth Avenue. MALKAN'S, 42 Broadway.
